

Healthier Spaces. Healthier People.

EM360™ Portable Backpack

Electrostatic Disinfectant Application System

Whether it's an assisted living facility, clinic or hospital, running a healthier operation begins with a healthier environment. EMist® was developed to help healthcare organizations reduce infections and improve patient outcomes while reducing costs.

Standard Backpack

Ideal for quick turnaround disinfection in larger spaces such as:

- School Hallways
- Gymnasiums
- Health Clubs
- Hospital Corridors
- Conference rooms
- Factory floors

Facts at a glance

- 360° comprehensive coverage
- Uses 75% less chemicals
- 54,000 high-touch point sq.ft.
- Average room disinfected in less than three minutes
- Reduces labor time by 45%
- Saves 50% on the cost of solutions

Product specifications

- Cordless
- Two hour continuous battery life
- One gallon tank
- Empty weight: 16 lbs.
- Filled weight: 25 lbs.
- Quiet – 65 decibel noise level
- Easy conversion from backpack to roller cart
- One year warranty

System includes

- 1 Applicator
- 1 Power Pack
- 1 Tank
- 1 Harness
- 1 Holster
- 1 ESD Grounding Strap
- 1 Rechargeable Battery
- 1 Battery Charger

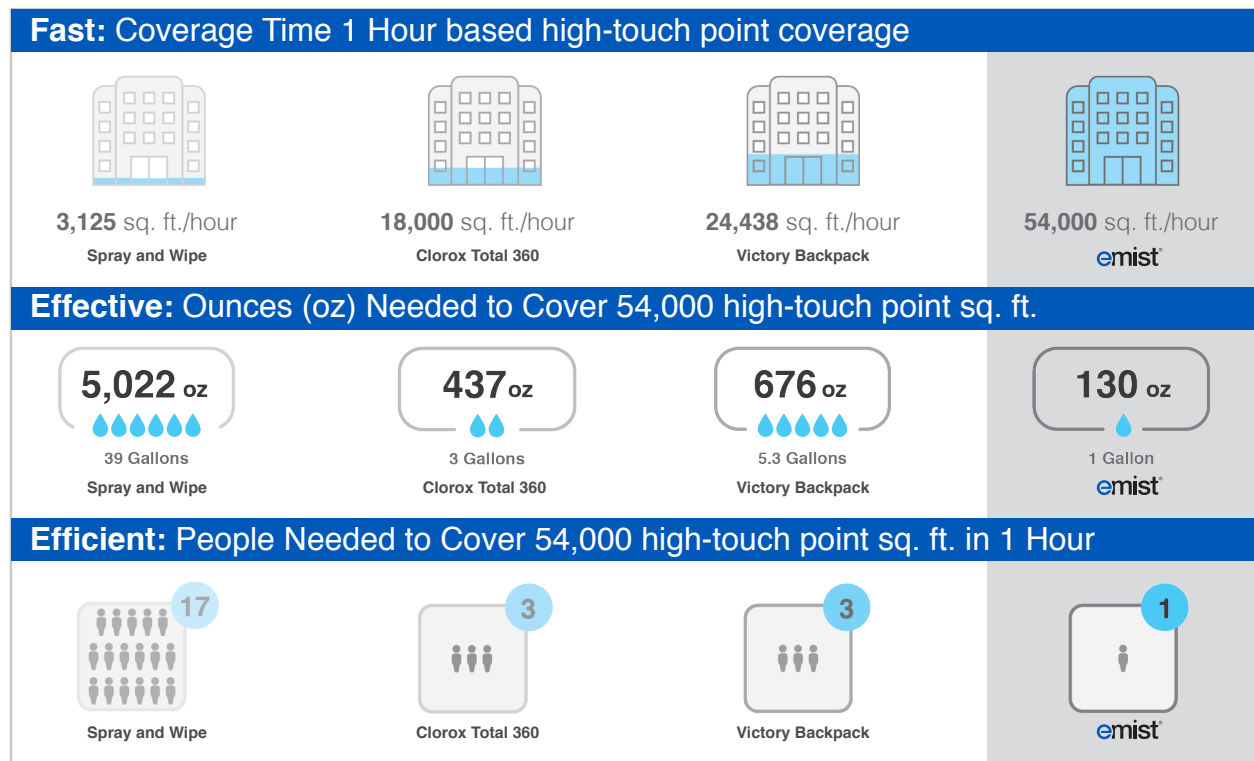

EM360™ Portable Backpack

Electrostatic Disinfectant Application System

Healthier Spaces. Healthier People.

The EMist EM360 is the most powerful, efficient and cost-effective disinfection treatment available today. Its patented application system places an electrostatic charge to liquid disinfectants as they leave the spray nozzle, which allows them to cling to virtually any surface and destroy 99.9999% of germs*. And because one gallon of solution can cover up to 54,000 high-touch point square feet of surface area per hour, facility managers can save up to 50% on the cost of solution and 45% on labor.

EMist vs. the Competition

*99.9999% of pathogens when used as directed with specific EPA-stipulated chemicals.
